266 Pressure Transmitters

- Highly Customizable
- WirelessHART Option
- 10 year Stability and Battery Life
- Built In Advanced Diagnostics

Temperature Transmitters

- High Accuracy, reliability, and durability
- Highly Customizable
- Built In Advanced Diagnostics

TOTALFLOW Gas Flow Computers

- Smart Integral Multivariable Transducer (XIMV)
- Comprehensive Custody Quality History
- Quick, Easy Installation

Flow-X Flow Computer

- Most accurate and secure flow computer on the market
- Modern design and user interface

Flow Meters

- Coriolis, Vortex, Swirl, Mag Meters
- Highest Precision Measurement Devices
- Mass and Volume Flow with Density and Temperature measurements
- Highly Customizable

TropOs Wireless Solutions

- cost-effective, easy to deploy, high-performance networking solutions for all environments

KTEK Level Solutions

- Versatile level instruments affording our customers practical and innovative solutions.

## Valves

Partners

samsara

- Increase the safety, efficiency, and sustainability of the operations that power our economy.
- IoT solutions that bring real-time visibility, analytics, and AI to operations

WELKER

Welker is an experienced manufacturer serving the Energy and other industries. With 80+ patents, Welker offers products and solutions for applications in sampling, conditioning, filtering, regulation, injection, containers, and control.

Measurement Automation for the Modern Oilfield

CRT applies tomorrow's technology with yesterday's service. CRT provides design, construction, installation, startup, commissioning and after-market support. Whether you need a quick turnaround to delivery or a highly customized solution to meet your unique measurement needs, CRT defines and delivers high-quality measurement systems across the globe.

CRT Services specializes in the design and fabrication of standard and custom control panels for measurement and control in oil and gas applications. CRT has hundreds of systems running in the United States and abroad. Our controls are UL 508A listed. We are a complete controls solution: design, fabrication, and service.
